

## Jason R. Adams, M.S.

### *Principal Scientist*

### *Permitting Agent, Wetlands Scientist & Estuarine Ecologist*

#### EDUCATION

M.Sc., Ecology, Jacksonville State U,  
Jacksonville, AL 1999

B.S., Marine Biology, Dauphin Island  
Sea Lab & Jacksonville State  
U, Jacksonville AL 1994

#### PROFESSIONAL INVOLVEMENT

- Principal Ecologist– DNA Environmental Logistics, 2005-Present.
- Senior Ecologist—Adams & Nichols Ecological 1999-2005.
- Project Ecologist—Law Eng and Environmental Logistics 2000-2001
- Field Biologist — Everglades National Park—Department of Interior and the University of Florida. 1998-1999
- Field Scientist —Fort McClellan AL, US Army BRACC Jacksonville State University, 1995- 1998.

#### SELECTED PROJECT EXPERIENCE

Private: 1999-Present; Numerous Developers in the state of Florida; environmental permitting agent, principal ecologist.

Federal: 1999 Consulting Biologist US Dept of Interior Everglades Nat Park 1995-1998 Consulting biologist—US Army/ BRACC, Ft McClellan AL

State: 1998-1999 U of Florida; Gainesville, Field Biologist— Everglades Nat Park—Miami 1994 U of South Alabama/ADEM Consulting Sea Turtle Biologist 1994 Mobile, AL

#### PROFESSIONAL AFFILIATIONS

Assoc. of Southeastern Biologists (ASB)  
Estuarine Research Foundation (ERF)  
Alabama Academy of Sciences (AAS)  
SE Div. of Ichthyologists & Herpetologists  
Beta Beta Beta Biological Honor Society  
PADI Certified Diver

Mr. Adams brings over 15 years of professional environmental consulting experience as an experienced ecologist, educator and project director with a diverse skill set including a background in wildlife and fisheries biology, personnel and project management, agency, client, and subcontractor coordination, and environmental policy document preparation. He has extensive knowledge of the ecology of the Southeastern U.S. and Gulf Coast and has worked with all government levels (federal, state, and local regulatory agencies) representing numerous clients as an environmental permitting agent. Mr. Adams' has expert knowledge of terrestrial and aquatic (freshwater and marine) habitats and is proficient in preparing Joint US Army Corps (USACE) & FL Dept of Environmental Protection (FDEP) Environmental Resource Permit applications (ERP). He routinely principles mitigation plans including many for threatened and endangered species (flora and fauna).

As an ecologist, Mr. Adams has attained extensive professional experience working for both government and private sectors. He has worked as a consultant to various universities, the U.S. Army, the Department of Interior and numerous private sector clients. He has a thorough knowledge and understanding of federal & state environmental laws such as the Florida Endangered Species Act, Florida Water Resources Act (FWRA), the Federal Clean Water Act (CWA) and the Federal Endangered Species Act (FESA). His competence as a wetland's ecologist and environmental permitting agent have afforded many clients the opportunity to complete projects that would be otherwise non-permittable. He is also very familiar with developing mitigation and restoration plans and often employs innovative strategies to offset impacts to various natural resources.

Mr. Adams routinely represents clients with agencies such as the U.S. Army Corps of Engineers (USACE), the U.S. Fish and Wildlife Service (USFWS), the Florida Department of Environmental Protection (FDEP), Florida Wildlife Conservation Commission (FWC), and Florida Water Management Districts (FWWD) Mr. Adams has also conducted numerous USACE and State DEP jurisdictional wetland's delineations throughout the Southeast including Florida, Alabama, and Mississippi.
